

Hi Donna,

I'd like to request (demand!) that all food that is irradiated have a green "radura" symbol, and the statement "treated by irradiation." At the very least!!! Irradiation should not be allowed, but if we have to put up with this ridiculously stupid practice, at least we need to let people know.

They have a right to know!!

It would be unconscionable to do otherwise!

Please, REQUIRE IT!!!

Thank you-

An aware consumer,

Dave Wattan
